Section 1: Public Parks

A committee of 13 members reviewed the Public Parks programme and recommended 8 improvements, which will be discussed in 11 public meetings. During 2025 the Public Parks department held 13 review meetings and inspected 8 sites across 11 wards. The department plans to train 40 new staff members and upgrade 3 facilities related to Public Parks in the coming year.

A committee of 9 members reviewed the Public Parks programme and recommended 5 improvements, which will be discussed in 6 public meetings. Complaints about Public Parks fell by 4 percent compared with the previous year, mainly because of faster response times. During 2025 the Public Parks department held 9 review meetings and inspected 5 sites across 6 wards.

Section 2: Street Lighting

Complaints about Street Lighting fell by 12 percent compared with the previous year, mainly because of faster response times. During 2025 the Street Lighting department held 29 review meetings and inspected 22 sites across 6 wards. A committee of 29 members reviewed the Street Lighting programme and recommended 22 improvements, which will be discussed in 6 public meetings.

During 2025 the Street Lighting department held 4 review meetings and inspected 21 sites across 18 wards. The department plans to train 32 new staff members and upgrade 4 facilities related to Street Lighting in the coming year. Complaints about Street Lighting fell by 11 percent compared with the previous year, mainly because of faster response times.

Section 3: Local Markets

A committee of 29 members reviewed the Local Markets programme and recommended 25 improvements, which will be discussed in 7 public meetings. During 2025 the Local Markets department held 29 review meetings and inspected 25 sites across 7 wards. The department plans to train 18 new staff members and upgrade 7 facilities related to Local Markets in the coming year.

The department plans to train 40 new staff members and upgrade 8 facilities related to Local Markets in the coming year. Complaints about Local Markets fell by 15 percent compared with the previous year, mainly because of faster response times. A committee of 4 members reviewed the Local Markets programme and recommended 23 improvements, which will be discussed in 8 public meetings.

Section 4: Public Libraries

The department plans to train 21 new staff members and upgrade 3 facilities related to Public Libraries in the coming year. Complaints about Public Libraries fell by 12 percent compared with the previous year, mainly because of faster response times. Public feedback on Public Libraries was collected through 6 surveys, and 60 percent of respondents said they were satisfied with the service.

Public feedback on Public Libraries was collected through 12 surveys, and 57 percent of respondents said they were satisfied with the service. The department plans to train 13 new staff members and upgrade 10 facilities related to Public Libraries in the coming year. During 2025 the Public Libraries department held 26 review meetings and inspected 18 sites across 9 wards.

Section 5: Emergency Services

The department plans to train 26 new staff members and upgrade 7 facilities related to Emergency Services in the coming year. Complaints about Emergency Services fell by 14 percent compared with the previous year, mainly because of faster response times. A committee of 18 members reviewed the Emergency Services programme and recommended 17 improvements, which will be discussed in 5 public meetings.

During 2025 the Emergency Services department held 28 review meetings and inspected 18 sites across 6 wards. A committee of 28 members reviewed the Emergency Services programme and recommended 18 improvements, which will be discussed in 6 public meetings. The department plans to train 36 new staff members and upgrade 13 facilities related to Emergency Services in the coming year.

Section 6: Housing Schemes

Complaints about Housing Schemes fell by 14 percent compared with the previous year, mainly because of faster response times. The department plans to train 34 new staff members and upgrade 6 facilities related to Housing Schemes in the coming year. During 2025 the Housing Schemes department held 25 review meetings and inspected 13 sites across 15 wards.

The department plans to train 37 new staff members and upgrade 2 facilities related to Housing Schemes in the coming year. Public feedback on Housing Schemes was collected through 12 surveys, and 58 percent of respondents said they were satisfied with the service. A committee of 17 members reviewed the Housing Schemes programme and recommended 15 improvements, which will be discussed in 7 public meetings.

Section 7: Water Supply

A committee of 10 members reviewed the Water Supply programme and recommended 16 improvements, which will be discussed in 11 public meetings. The department plans to train 16 new staff members and upgrade 9 facilities related to Water Supply in the coming year. During 2025 the Water Supply department held 10 review meetings and inspected 16 sites across 11 wards.

The municipal water treatment plant processes 48 million litres of water every day and serves 210,000 residents.

Complaints about Water Supply fell by 13 percent compared with the previous year, mainly because of faster response times. Public feedback on Water Supply was collected through 11 surveys, and 63 percent of respondents said they were satisfied with the service. During 2025 the Water Supply department held 29 review meetings and inspected 17 sites across 18 wards.

Section 8: Cultural Events

A committee of 5 members reviewed the Cultural Events programme and recommended 9 improvements, which will be discussed in 7 public meetings. Public feedback on Cultural Events was collected through 6 surveys, and 76 percent of respondents said they were satisfied with the service. Complaints about Cultural Events fell by 10 percent compared with the previous year, mainly because of faster response times.

The department plans to train 29 new staff members and upgrade 11 facilities related to Cultural Events in the coming year. Public feedback on Cultural Events was collected through 9 surveys, and 72 percent of respondents said they were satisfied with the service. A committee of 12 members reviewed the Cultural Events programme and recommended 4 improvements, which will be discussed in 7 public meetings.

Section 9: Tax Collection

Complaints about Tax Collection fell by 9 percent compared with the previous year, mainly because of faster response times. During 2025 the Tax Collection department held 19 review meetings and inspected 23 sites across 15 wards. Public feedback on Tax Collection was collected through 3 surveys, and 69 percent of respondents said they were satisfied with the service.

During 2025 the Tax Collection department held 23 review meetings and inspected 16 sites across 5 wards. The department plans to train 19 new staff members and upgrade 9 facilities related to Tax Collection in the coming year. Complaints about Tax Collection fell by 5 percent compared with the previous year, mainly because of faster response times.

Section 10: Public Health Clinics

A committee of 4 members reviewed the Public Health Clinics programme and recommended 7 improvements, which will be discussed in 5 public meetings. During 2025 the Public Health Clinics department held 4 review meetings and inspected 7 sites across 5 wards. Complaints about Public Health Clinics fell by 8 percent compared with the previous year, mainly because of faster response times.

The department plans to train 22 new staff members and upgrade 7 facilities related to Public Health Clinics in the coming year. Complaints about Public Health Clinics fell by 12 percent compared with the previous year, mainly because of faster response times. During 2025 the Public Health Clinics department held 9 review meetings and inspected 23 sites across 11 wards.

Section 11: Fire Safety

Public feedback on Fire Safety was collected through 10 surveys, and 70 percent of respondents said they were satisfied with the service. During 2025 the Fire Safety department held 6 review meetings and inspected 31 sites across 12 wards. The department plans to train 36 new staff members and upgrade 6 facilities related to Fire Safety in the coming year.

Public feedback on Fire Safety was collected through 10 surveys, and 77 percent of respondents said they were satisfied with the service. The department plans to train 16 new staff members and upgrade 10 facilities related to Fire Safety in the coming year. During 2025 the Fire Safety department held 13 review meetings and inspected 27 sites across 9 wards.

Section 12: Tree Plantation

During 2025 the Tree Plantation department held 25 review meetings and inspected 21 sites across 19 wards. The department plans to train 39 new staff members and upgrade 6 facilities related to Tree Plantation in the coming year. Complaints about Tree Plantation fell by 13 percent compared with the previous year, mainly because of faster response times.

The department plans to train 40 new staff members and upgrade 14 facilities related to Tree Plantation in the coming year. Public feedback on Tree Plantation was collected through 6 surveys, and 72 percent of respondents said they were satisfied with the service. A committee of 14 members reviewed the Tree Plantation programme and recommended 9 improvements, which will be discussed in 10 public meetings.

Section 13: Public Toilets

Public feedback on Public Toilets was collected through 6 surveys, and 62 percent of respondents said they were satisfied with the service. A committee of 28 members reviewed the Public Toilets programme and recommended 29 improvements, which will be discussed in 17 public meetings. The department plans to train 31 new staff members and upgrade 13 facilities related to Public Toilets in the coming year.

Public feedback on Public Toilets was collected through 3 surveys, and 55 percent of respondents said they were satisfied with the service. The department plans to train 23 new staff members and upgrade 9 facilities related to Public Toilets in the coming year. A committee of 18 members reviewed the Public Toilets programme and recommended 15 improvements, which will be discussed in 16 public meetings.

Section 14: Land Records

Complaints about Land Records fell by 6 percent compared with the previous year, mainly because of faster response times. Public feedback on Land Records was collected through 8 surveys, and 57 percent of respondents said they were satisfied with the service. A committee of 28 members reviewed the Land Records programme and recommended 27 improvements, which will be discussed in 10 public meetings.

During 2025 the Land Records department held 9 review meetings and inspected 19 sites across 14 wards. A committee of 9 members reviewed the Land Records programme and recommended 19 improvements, which will be discussed in 14 public meetings. Public feedback on Land Records was collected through 12 surveys, and 55 percent of respondents said they were satisfied with the service.

Section 15: Business Licences

The department plans to train 17 new staff members and upgrade 8 facilities related to Business Licences in the coming year. During 2025 the Business Licences department held 28 review meetings and inspected 26 sites across 17 wards. A committee of 28 members reviewed the Business Licences programme and recommended 26 improvements, which will be discussed in 17 public meetings.

During 2025 the Business Licences department held 15 review meetings and inspected 18 sites across 11 wards. Public feedback on Business Licences was collected through 4 surveys, and 78 percent of respondents said they were satisfied with the service. The department plans to train 16 new staff members and upgrade 4 facilities related to Business Licences in the coming year.

Section 16: Drainage Maintenance

Public feedback on Drainage Maintenance was collected through 5 surveys, and 74 percent of respondents said they were satisfied with the service. A committee of 17 members reviewed the Drainage Maintenance programme and recommended 29 improvements, which will be discussed in 15 public meetings. During 2025 the Drainage Maintenance department held 17 review meetings and inspected 29 sites across 15 wards.

Public feedback on Drainage Maintenance was collected through 4 surveys, and 71 percent of respondents said they were satisfied with the service. A committee of 3 members reviewed the Drainage Maintenance programme and recommended 29 improvements, which will be discussed in 16 public meetings. During 2025 the Drainage Maintenance department held 3 review meetings and inspected 29 sites across 16 wards.

Section 17: Community Centres

Complaints about Community Centres fell by 11 percent compared with the previous year, mainly because of faster response times. Public feedback on Community Centres was collected through 11 surveys, and 62 percent of respondents said they were satisfied with the service. During 2025 the Community Centres department held 11 review meetings and inspected 10 sites across 9 wards.

A committee of 26 members reviewed the Community Centres programme and recommended 15 improvements, which will be discussed in 19 public meetings. Public feedback on Community Centres was collected through 10 surveys, and 76 percent of respondents said they were satisfied with the service. The department plans to train 39 new staff members and upgrade 8 facilities related to Community Centres in the coming year.

Section 18: Roads and Transport

Public feedback on Roads and Transport was collected through 3 surveys, and 69 percent of respondents said they were satisfied with the service. A committee of 7 members reviewed the Roads and Transport programme and recommended 20 improvements, which will be discussed in 13 public meetings. During 2025 the Roads and Transport department held 7 review meetings and inspected 20 sites across 13 wards.

The new Eastern Bypass road is 14.5 kilometres long and was completed in March 2025 at a total cost of Rs. 3.2 billion.

A committee of 18 members reviewed the Roads and Transport programme and recommended 23 improvements, which will be discussed in 16 public meetings. Complaints about Roads and Transport fell by 13 percent compared with the previous year, mainly because of faster response times. During 2025 the Roads and Transport department held 18 review meetings and inspected 23 sites across 16 wards.

Section 19: Noise Complaints

A committee of 20 members reviewed the Noise Complaints programme and recommended 5 improvements, which will be discussed in 8 public meetings. Complaints about Noise Complaints fell by 4 percent compared with the previous year, mainly because of faster response times. The department plans to train 8 new staff members and upgrade 14 facilities related to Noise Complaints in the coming year.

A committee of 3 members reviewed the Noise Complaints programme and recommended 28 improvements, which will be discussed in 19 public meetings. Public feedback on Noise Complaints was collected through 4 surveys, and 69 percent of respondents said they were satisfied with the service. The department plans to train 26 new staff members and upgrade 11 facilities related to Noise Complaints in the coming year.

Section 20: Digital Services

A committee of 11 members reviewed the Digital Services programme and recommended 18 improvements, which will be discussed in 13 public meetings. The department plans to train 38 new staff members and upgrade 5 facilities related to Digital Services in the coming year. Complaints about Digital Services fell by 14 percent compared with the previous year, mainly because of faster response times.

The department plans to train 13 new staff members and upgrade 8 facilities related to Digital Services in the coming year. During 2025 the Digital Services department held 9 review meetings and inspected 30 sites across 12 wards. A committee of 9 members reviewed the Digital Services programme and recommended 30 improvements, which will be discussed in 12 public meetings.

Section 21: Parking Management

Public feedback on Parking Management was collected through 6 surveys, and 76 percent of respondents said they were satisfied with the service. The department plans to train 25 new staff members and upgrade 14 facilities related to Parking Management in the coming year. During 2025 the Parking Management department held 10 review meetings and inspected 17 sites across 6 wards.

Public feedback on Parking Management was collected through 6 surveys, and 78 percent of respondents said they were satisfied with the service. A committee of 11 members reviewed the Parking Management programme and recommended 8 improvements, which will be discussed in 12 public meetings. During 2025 the Parking Management department held 11 review meetings and inspected 8 sites across 12 wards.

Section 22: Bridge Inspection

The department plans to train 32 new staff members and upgrade 5 facilities related to Bridge Inspection in the coming year. During 2025 the Bridge Inspection department held 25 review meetings and inspected 17 sites across 13 wards. A committee of 25 members reviewed the Bridge Inspection programme and recommended 17 improvements, which will be discussed in 13 public meetings.

Complaints about Bridge Inspection fell by 3 percent compared with the previous year, mainly because of faster response times. The department plans to train 34 new staff members and upgrade 13 facilities related to Bridge Inspection in the coming year. A committee of 14 members reviewed the Bridge Inspection programme and recommended 4 improvements, which will be discussed in 10 public meetings.

Section 23: Youth Programs

The department plans to train 20 new staff members and upgrade 3 facilities related to Youth Programs in the coming year. A committee of 22 members reviewed the Youth Programs programme and recommended 13 improvements, which will be discussed in 13 public meetings. During 2025 the Youth Programs department held 22 review meetings and inspected 13 sites across 13 wards.

A committee of 27 members reviewed the Youth Programs programme and recommended 9 improvements, which will be discussed in 9 public meetings. Complaints about Youth Programs fell by 5 percent compared with the previous year, mainly because of faster response times. The department plans to train 22 new staff members and upgrade 8 facilities related to Youth Programs in the coming year.

Section 24: Senior Citizen Care

The department plans to train 17 new staff members and upgrade 8 facilities related to Senior Citizen Care in the coming year. During 2025 the Senior Citizen Care department held 13 review meetings and inspected 6 sites across 9 wards. A committee of 13 members reviewed the Senior Citizen Care programme and recommended 6 improvements, which will be discussed in 9 public meetings.

During 2025 the Senior Citizen Care department held 5 review meetings and inspected 29 sites across 9 wards. Complaints about Senior Citizen Care fell by 7 percent compared with the previous year, mainly because of faster response times. A committee of 5 members reviewed the Senior Citizen Care programme and recommended 29 improvements, which will be discussed in 9 public meetings.

Section 25: Tourism Promotion

Public feedback on Tourism Promotion was collected through 7 surveys, and 74 percent of respondents said they were satisfied with the service. During 2025 the Tourism Promotion department held 13 review meetings and inspected 21 sites across 11 wards. Complaints about Tourism Promotion fell by 11 percent compared with the previous year, mainly because of faster response times.

Public feedback on Tourism Promotion was collected through 6 surveys, and 64 percent of respondents said they were satisfied with the service. The department plans to train 25 new staff members and upgrade 10 facilities related to Tourism Promotion in the coming year. A committee of 11 members reviewed the Tourism Promotion programme and recommended 5 improvements, which will be discussed in 7 public meetings.

Section 26: Public Parks

During 2025 the Public Parks department held 19 review meetings and inspected 25 sites across 7 wards. A committee of 19 members reviewed the Public Parks programme and recommended 25 improvements, which will be discussed in 7 public meetings. The department plans to train 7 new staff members and upgrade 6 facilities related to Public Parks in the coming year.

Complaints about Public Parks fell by 4 percent compared with the previous year, mainly because of faster response times. A committee of 19 members reviewed the Public Parks programme and recommended 21 improvements, which will be discussed in 8 public meetings. The department plans to train 21 new staff members and upgrade 9 facilities related to Public Parks in the coming year.

Section 27: Street Lighting

Public feedback on Street Lighting was collected through 7 surveys, and 77 percent of respondents said they were satisfied with the service. A committee of 29 members reviewed the Street Lighting programme and recommended 16 improvements, which will be discussed in 13 public meetings. Complaints about Street Lighting fell by 8 percent compared with the previous year, mainly because of faster response times.

The department plans to train 10 new staff members and upgrade 12 facilities related to Street Lighting in the coming year. Complaints about Street Lighting fell by 14 percent compared with the previous year, mainly because of faster response times. During 2025 the Street Lighting department held 14 review meetings and inspected 5 sites across 18 wards.

Section 28: Local Markets

The department plans to train 24 new staff members and upgrade 11 facilities related to Local Markets in the coming year. During 2025 the Local Markets department held 4 review meetings and inspected 6 sites across 15 wards. Public feedback on Local Markets was collected through 9 surveys, and 71 percent of respondents said they were satisfied with the service.

A committee of 8 members reviewed the Local Markets programme and recommended 9 improvements, which will be discussed in 9 public meetings. The department plans to train 22 new staff members and upgrade 7 facilities related to Local Markets in the coming year. During 2025 the Local Markets department held 8 review meetings and inspected 9 sites across 9 wards.

Section 29: Education

During 2025 the Education department held 4 review meetings and inspected 13 sites across 8 wards. Complaints about Education fell by 9 percent compared with the previous year, mainly because of faster response times. Public feedback on Education was collected through 8 surveys, and 60 percent of respondents said they were satisfied with the service.

The city operates 42 public schools. The average class size is 31 students and the literacy rate reached 87 percent in 2025.

During 2025 the Education department held 19 review meetings and inspected 24 sites across 8 wards. Public feedback on Education was collected through 6 surveys, and 71 percent of respondents said they were satisfied with the service. Complaints about Education fell by 7 percent compared with the previous year, mainly because of faster response times.

Section 30: Emergency Services

During 2025 the Emergency Services department held 21 review meetings and inspected 5 sites across 11 wards. Public feedback on Emergency Services was collected through 3 surveys, and 64 percent of respondents said they were satisfied with the service. The department plans to train 25 new staff members and upgrade 12 facilities related to Emergency Services in the coming year.

Public feedback on Emergency Services was collected through 12 surveys, and 67 percent of respondents said they were satisfied with the service. The department plans to train 26 new staff members and upgrade 13 facilities related to Emergency Services in the coming year. Complaints about Emergency Services fell by 10 percent compared with the previous year, mainly because of faster response times.

Section 31: Housing Schemes

A committee of 22 members reviewed the Housing Schemes programme and recommended 24 improvements, which will be discussed in 7 public meetings. Public feedback on Housing Schemes was collected through 3 surveys, and 77 percent of respondents said they were satisfied with the service. The department plans to train 38 new staff members and upgrade 12 facilities related to Housing Schemes in the coming year.

During 2025 the Housing Schemes department held 27 review meetings and inspected 20 sites across 14 wards. Public feedback on Housing Schemes was collected through 3 surveys, and 76 percent of respondents said they were satisfied with the service. The department plans to train 20 new staff members and upgrade 3 facilities related to Housing Schemes in the coming year.

Section 32: Sports Facilities

A committee of 14 members reviewed the Sports Facilities programme and recommended 7 improvements, which will be discussed in 11 public meetings. Public feedback on Sports Facilities was collected through 10 surveys, and 72 percent of respondents said they were satisfied with the service. Complaints about Sports Facilities fell by 3 percent compared with the previous year, mainly because of faster response times.

A committee of 11 members reviewed the Sports Facilities programme and recommended 4 improvements, which will be discussed in 12 public meetings. During 2025 the Sports Facilities department held 11 review meetings and inspected 4 sites across 12 wards. The department plans to train 38 new staff members and upgrade 10 facilities related to Sports Facilities in the coming year.

Section 33: Cultural Events

Public feedback on Cultural Events was collected through 4 surveys, and 63 percent of respondents said they were satisfied with the service. A committee of 26 members reviewed the Cultural Events programme and recommended 19 improvements, which will be discussed in 9 public meetings. The department plans to train 21 new staff members and upgrade 13 facilities related to Cultural Events in the coming year.

During 2025 the Cultural Events department held 23 review meetings and inspected 18 sites across 12 wards. Public feedback on Cultural Events was collected through 9 surveys, and 57 percent of respondents said they were satisfied with the service. A committee of 23 members reviewed the Cultural Events programme and recommended 18 improvements, which will be discussed in 12 public meetings.

Section 34: Tax Collection

Public feedback on Tax Collection was collected through 7 surveys, and 75 percent of respondents said they were satisfied with the service. During 2025 the Tax Collection department held 22 review meetings and inspected 8 sites across 10 wards. A committee of 22 members reviewed the Tax Collection programme and recommended 8 improvements, which will be discussed in 10 public meetings.

The department plans to train 19 new staff members and upgrade 12 facilities related to Tax Collection in the coming year. A committee of 4 members reviewed the Tax Collection programme and recommended 19 improvements, which will be discussed in 9 public meetings. Public feedback on Tax Collection was collected through 4 surveys, and 77 percent of respondents said they were satisfied with the service.

Section 35: Public Health Clinics

Complaints about Public Health Clinics fell by 4 percent compared with the previous year, mainly because of faster response times. During 2025 the Public Health Clinics department held 17 review meetings and inspected 18 sites across 17 wards. Public feedback on Public Health Clinics was collected through 4 surveys, and 72 percent of respondents said they were satisfied with the service.

Public feedback on Public Health Clinics was collected through 11 surveys, and 69 percent of respondents said they were satisfied with the service. During 2025 the Public Health Clinics department held 17 review meetings and inspected 6 sites across 18 wards. The department plans to train 23 new staff members and upgrade 8 facilities related to Public Health Clinics in the coming year.

Section 36: Fire Safety

A committee of 5 members reviewed the Fire Safety programme and recommended 8 improvements, which will be discussed in 16 public meetings. The department plans to train 29 new staff members and upgrade 4 facilities related to Fire Safety in the coming year. During 2025 the Fire Safety department held 5 review meetings and inspected 8 sites across 16 wards.

During 2025 the Fire Safety department held 25 review meetings and inspected 15 sites across 8 wards. Complaints about Fire Safety fell by 5 percent compared with the previous year, mainly because of faster response times. The department plans to train 31 new staff members and upgrade 2 facilities related to Fire Safety in the coming year.

Section 37: Tree Plantation

During 2025 the Tree Plantation department held 17 review meetings and inspected 16 sites across 9 wards. The department plans to train 28 new staff members and upgrade 8 facilities related to Tree Plantation in the coming year. A committee of 17 members reviewed the Tree Plantation programme and recommended 16 improvements, which will be discussed in 9 public meetings.

The department plans to train 18 new staff members and upgrade 13 facilities related to Tree Plantation in the coming year. A committee of 13 members reviewed the Tree Plantation programme and recommended 28 improvements, which will be discussed in 10 public meetings. Public feedback on Tree Plantation was collected through 9 surveys, and 58 percent of respondents said they were satisfied with the service.

Section 38: Public Toilets

The department plans to train 29 new staff members and upgrade 8 facilities related to Public Toilets in the coming year. During 2025 the Public Toilets department held 5 review meetings and inspected 16 sites across 11 wards. Public feedback on Public Toilets was collected through 12 surveys, and 57 percent of respondents said they were satisfied with the service.

Complaints about Public Toilets fell by 7 percent compared with the previous year, mainly because of faster response times. The department plans to train 15 new staff members and upgrade 5 facilities related to Public Toilets in the coming year. During 2025 the Public Toilets department held 6 review meetings and inspected 5 sites across 18 wards.

Section 39: Land Records

Public feedback on Land Records was collected through 9 surveys, and 55 percent of respondents said they were satisfied with the service. During 2025 the Land Records department held 27 review meetings and inspected 15 sites across 17 wards. Complaints about Land Records fell by 11 percent compared with the previous year, mainly because of faster response times.

The department plans to train 14 new staff members and upgrade 12 facilities related to Land Records in the coming year. Complaints about Land Records fell by 16 percent compared with the previous year, mainly because of faster response times. During 2025 the Land Records department held 26 review meetings and inspected 17 sites across 12 wards.

Section 40: Business Licences

The department plans to train 27 new staff members and upgrade 6 facilities related to Business Licences in the coming year. A committee of 20 members reviewed the Business Licences programme and recommended 8 improvements, which will be discussed in 7 public meetings. Public feedback on Business Licences was collected through 10 surveys, and 68 percent of respondents said they were satisfied with the service.

Public feedback on Business Licences was collected through 10 surveys, and 72 percent of respondents said they were satisfied with the service. During 2025 the Business Licences department held 23 review meetings and inspected 11 sites across 9 wards. Complaints about Business Licences fell by 5 percent compared with the previous year, mainly because of faster response times.

Section 41: Solid Waste Management

Complaints about Solid Waste Management fell by 15 percent compared with the previous year, mainly because of faster response times. A committee of 19 members reviewed the Solid Waste Management programme and recommended 29 improvements, which will be discussed in 12 public meetings. During 2025 the Solid Waste Management department held 19 review meetings and inspected 29 sites across 12 wards.

The waste management department collects 650 tonnes of solid waste daily and recycles 18 percent of it.

The department plans to train 27 new staff members and upgrade 10 facilities related to Solid Waste Management in the coming year. Public feedback on Solid Waste Management was collected through 4 surveys, and 60 percent of respondents said they were satisfied with the service. Complaints about Solid Waste Management fell by 4 percent compared with the previous year, mainly because of faster response times.

Section 42: Community Centres

A committee of 11 members reviewed the Community Centres programme and recommended 29 improvements, which will be discussed in 14 public meetings. Public feedback on Community Centres was collected through 6 surveys, and 55 percent of respondents said they were satisfied with the service. Complaints about Community Centres fell by 9 percent compared with the previous year, mainly because of faster response times.

Public feedback on Community Centres was collected through 3 surveys, and 70 percent of respondents said they were satisfied with the service. A committee of 11 members reviewed the Community Centres programme and recommended 14 improvements, which will be discussed in 17 public meetings. During 2025 the Community Centres department held 11 review meetings and inspected 14 sites across 17 wards.

Section 43: Animal Control

During 2025 the Animal Control department held 11 review meetings and inspected 11 sites across 11 wards. Public feedback on Animal Control was collected through 9 surveys, and 75 percent of respondents said they were satisfied with the service. A committee of 11 members reviewed the Animal Control programme and recommended 11 improvements, which will be discussed in 11 public meetings.

Complaints about Animal Control fell by 4 percent compared with the previous year, mainly because of faster response times. A committee of 16 members reviewed the Animal Control programme and recommended 26 improvements, which will be discussed in 17 public meetings. Public feedback on Animal Control was collected through 10 surveys, and 73 percent of respondents said they were satisfied with the service.

Section 44: Noise Complaints

During 2025 the Noise Complaints department held 10 review meetings and inspected 29 sites across 6 wards. Complaints about Noise Complaints fell by 13 percent compared with the previous year, mainly because of faster response times. A committee of 10 members reviewed the Noise Complaints programme and recommended 29 improvements, which will be discussed in 6 public meetings.

The department plans to train 20 new staff members and upgrade 11 facilities related to Noise Complaints in the coming year. Public feedback on Noise Complaints was collected through 3 surveys, and 59 percent of respondents said they were satisfied with the service. A committee of 20 members reviewed the Noise Complaints programme and recommended 28 improvements, which will be discussed in 5 public meetings.

Section 45: Digital Services
